

Dr. Mark Rosker, DARPA  
Dr. Dev Palmer, DARPA  
Select MTO Program Managers

**DATE:** Wednesday, August 19, 2020

**TIME:** 2:15 PM – 5:25 PM

## DESCRIPTION

*During MTO 101, Office leadership will provide information on the Microsystems Technology Office (MTO) and its ongoing and desired research priorities. The session - which will be repeated on Thursday August 20 - will also include valuable information on how best to engage with MTO and to seek research funding. The MTO 101 session will be immediately followed by a live, interactive panel featuring MTO Leadership and several MTO program managers (PMs). The PMs will share current and potential research areas from outside of the ERI portfolio, with topics that may include management of the radiofrequency spectrum and positioning, navigation, and timing. DARPA Leadership and PMs will conclude the session by taking questions from participants.*

## AGENDA
